II. Industry and Occupational Projections

II. Industry and Occupational Projections

The employment projections are produced using the Projections Suite software provided by the Projecting Managing Partnership.

A. Short Term Industry & Occupational Projections 2013-2015

Short term projections were completed and available statewide through the Puerto Rico Department of Labor Webpage. Reports are available in English and Spanish at:

http://www.trabajo.pr.gov/det_estadistica.asp?cnt_id=165

B. Long Term Industry & Occupational Projections 2012-2022

Long term projections were completed and disseminated and available statewide through the Puerto Rico Department of Labor Webpage. Also are disseminated through conferences targeted to: students of elementary and high school, Labor Development Administration (ADL), advisors and planners, Regional offices of the Department of Labor, universities and employment fairs. Reports are available in English and Spanish at:

http://www.trabajo.pr.gov/det_estadistica.asp?cnt_id=165

III. Annual Economic Analysis and other reports

III. Annual Economic Analysis

A. Annual Economic Analysis Report 2013-2014 (Included in a separate document)

This report will be available at:

http://www.trabajo.pr.gov/det_estadistica.asp?cnt_id=482

B. Other Reports

1. Occupational Skills Survey 2012

This is an annual survey conducted to identify the occupational skills to assist grade schools, universities, higher education programs and training programs by providing information for curriculum design and career decisions. It also provides parameters to evaluate the labor market dynamics in Puerto Rico. The survey products are:

- Par-time employment rate
- Contracting rate
- Separation rate
- Vacancy rates
- Higher demand occupations
- Medical insurance availability rate
- Overqualification rate
- Skills in demand

This report is available at:

http://www.trabajo.pr.gov/det_estadistica.asp?cnt_id=453

2. Characteristic of Unemployed Claimants - Fiscal Year 2012-2013

This reports was send to the Labor Development Administration (ADL) and Labor Development areas for the fiscal year 2012-2013.

IV. Customer Consultations - Satisfaction Survey

IV. Customer Consultations - Satisfaction Survey

Introduction

The Labor Market Information (LMI) Division of the Puerto Rico Bureau of Labor Statistics (BLS) develops a Customer Satisfaction Survey (CSS) annually. It consists of a questionnaire targeted toward users of state workforce statistics, and the Bureau's publications, sponsored by the Puerto Rico Department of Labor (PRDOL). The survey measures the users' perception of the publications and BLS surveys.

The purpose of the CSS survey is to:

Improve information services for our customers;

Evaluate the quality of the information produced, enhancing as much as possible, the information requested by our clients;

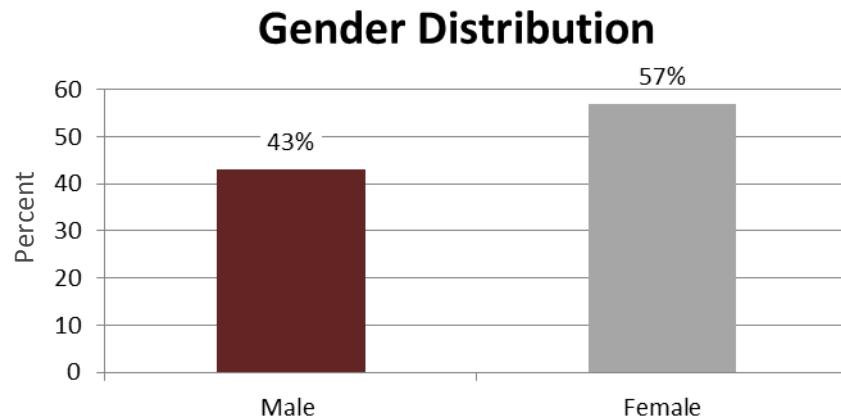

Comply with the required deliverables from our federal funding sources, and explore the system users' satisfaction level, regarding the information as provided by us.

A total of 672 questionnaires were sent during a three-month period from May to July 2014. After follow-up, we received 122 answered questionnaires with a response rate of 18%. This response rate may seem low; but during our follow-up period, we found that many of the surveyed customers had gone out of business, left the Island, or retired.

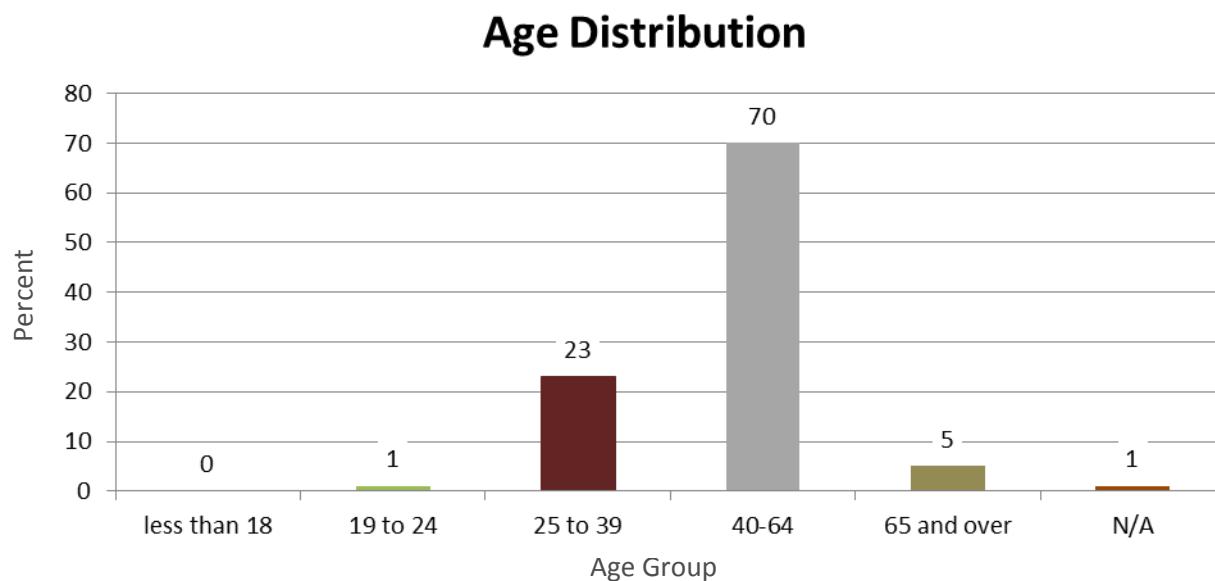

In this document we present the results of the survey, with added comments and recommendations from our customers.

Survey Results

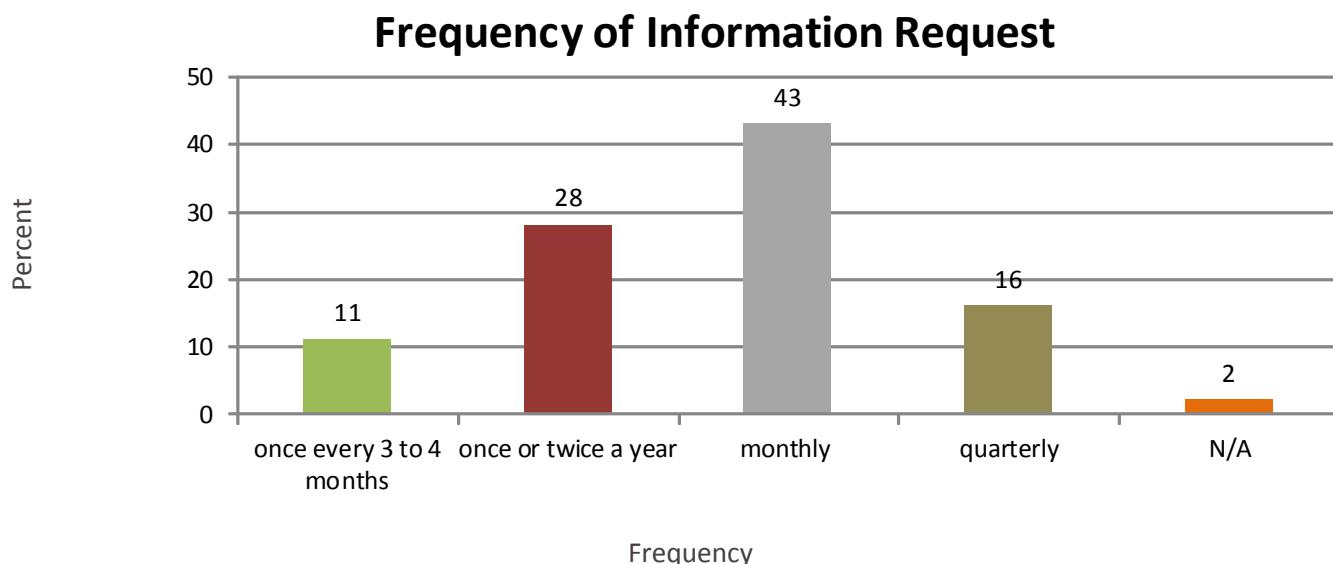

In terms of gender, females are our bigger users of the system, with 57.0% of the answers, while male represented 43.0% of all who answered.

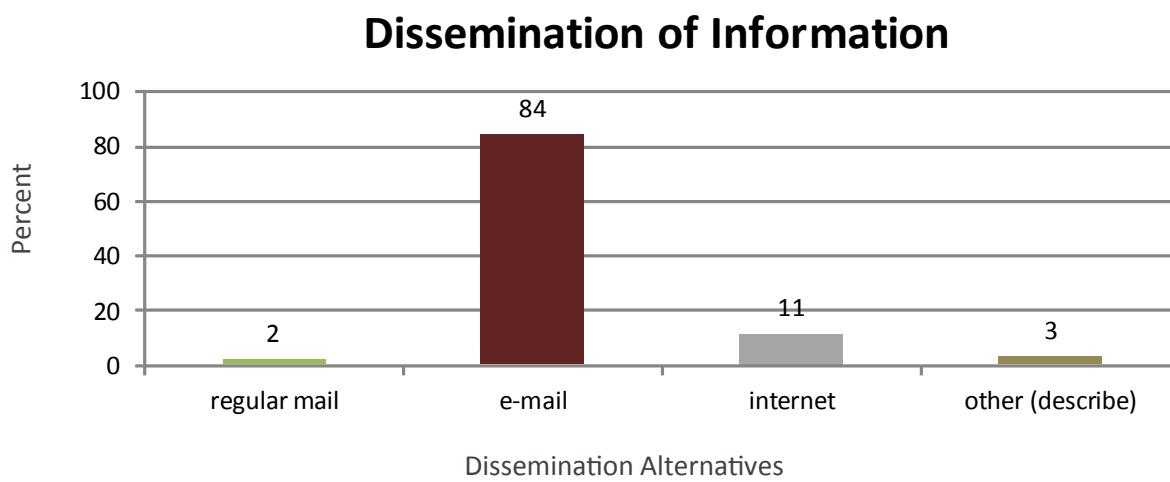

The age distribution is classified as being from less than 18 years old, to 65 years old and over. The largest group of users is in the 40-64 years old range, or 70.0 percent which would mean about 86 persons. This indicates that we have mature customers as the users our labor market information products.

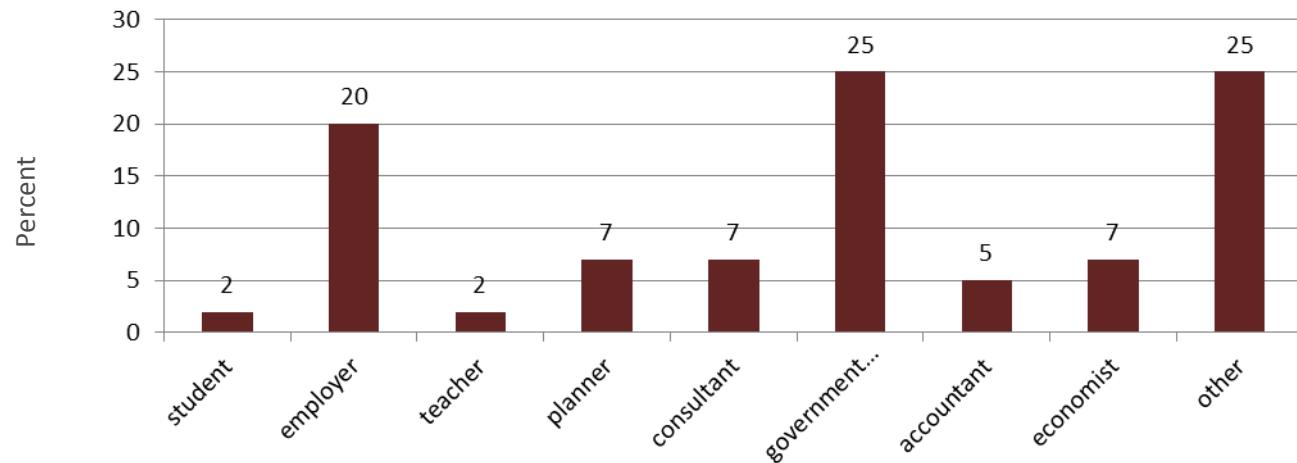

Forty three percent (43%) of our customers access our information on a monthly basis. According to our records, they are mainly consultants, mass media, counselors, college professors and students. The second group of approximately 28% uses the system once or twice a year. Quarterly frequency represents 16% of our users, and the remaining 11% access the system every three to four months.

The most frequent method for the dissemination of information is by e-mails, used by 84% of the users, while 11% uses the internet for direct access of the information.

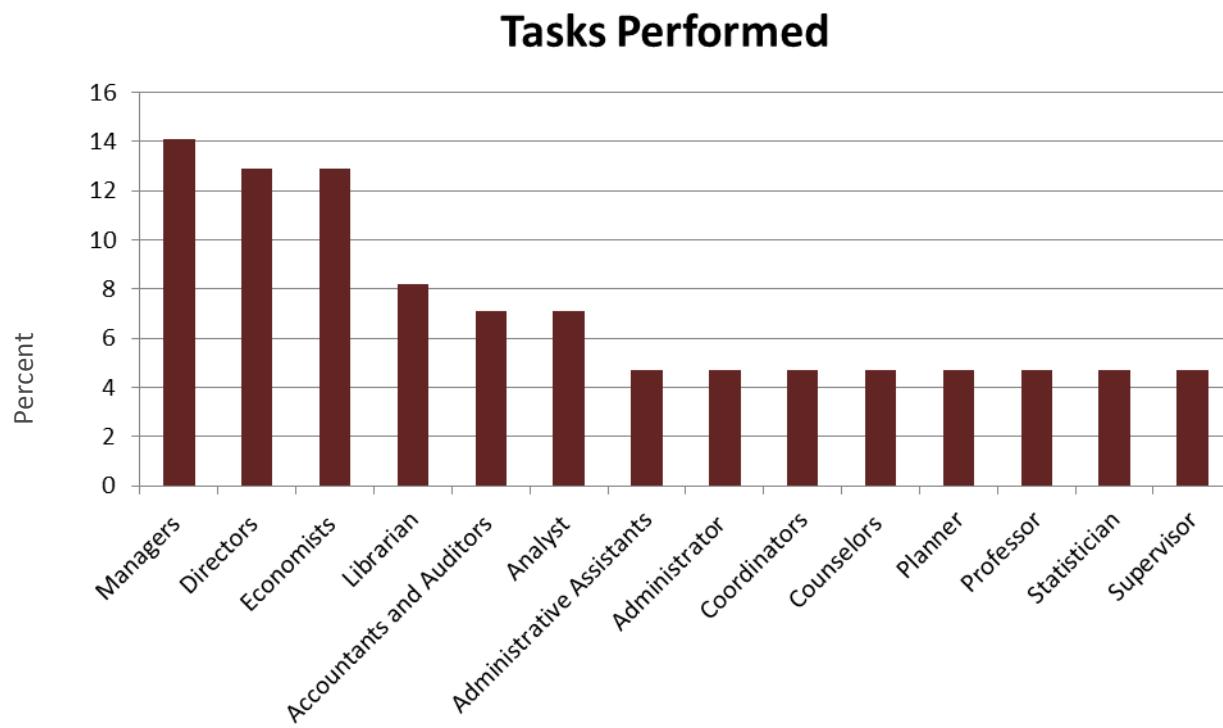

At this moment you are a:

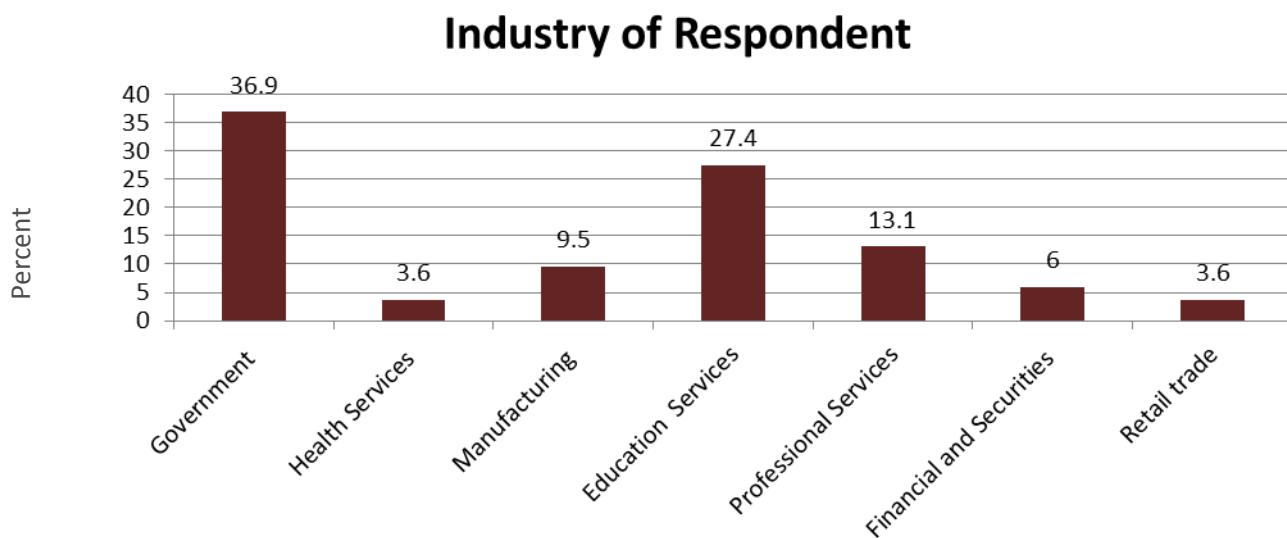

In terms of the occupations of those answering the survey, in general, 25.0 percent were government representatives who use the information mainly for grant application development, public policy determination, or other types of research. Employers represent 20 percent of the users, while the other categories are mainly media members and consultants or 25 percent of the total system users.

Question number 6 inquires more precisely about the functions or tasks performed by the respondents in their current employment. From the 122 regular information users, 85 responded to this question representing 70 percent of the total possible answers. In terms of functions of the interviewees, the following were identified:

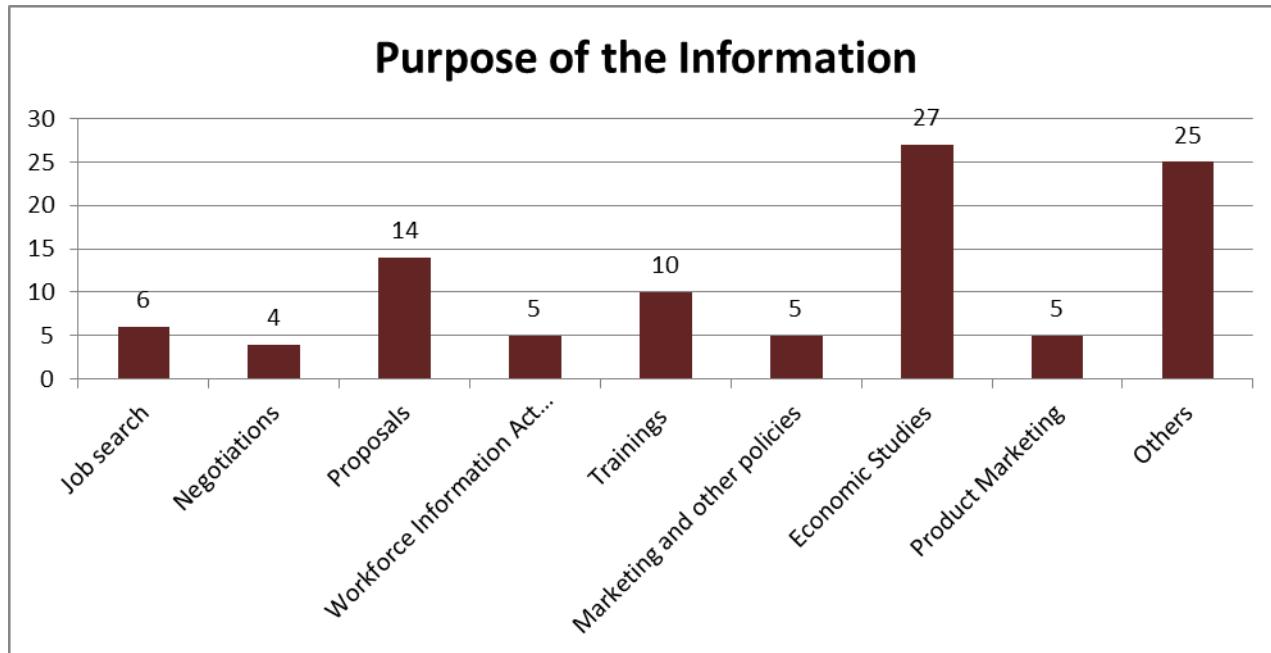

Most of the respondent's functions were Managers with 14 percent and, Directors and Economist with 13 percent each. This indicates that the top users of our information are performing executive functions in their current occupations.

In terms of the industry the interviewees identified their tasks with the following industry:

Government was the most identified industry of our respondents, representing 37 percent of total respondents. The government industry was followed by Education Services with 27 percent and Professional services with 13 percent.

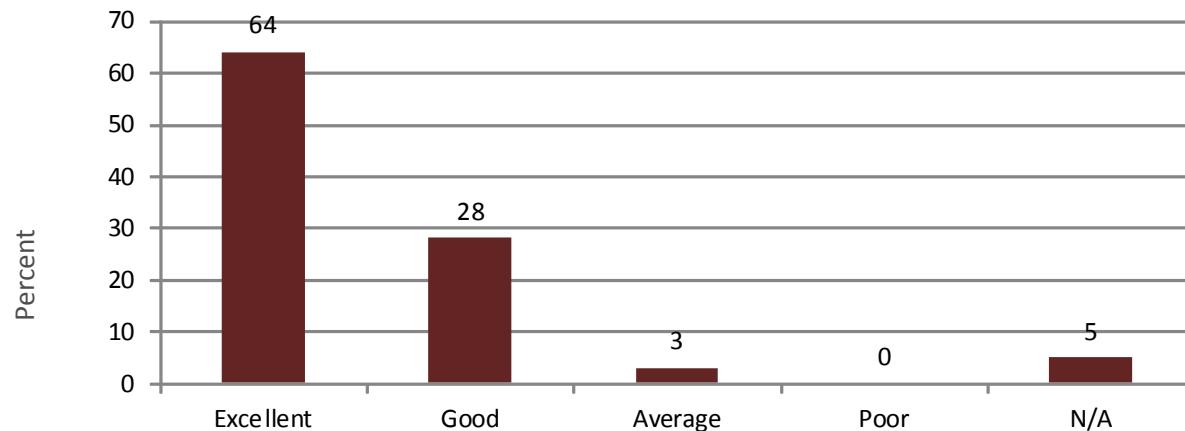

The most common uses for the information requested were Economic Studies with 27% and others with 25%. Again based on our records, these are mainly media reporters and consultants. Information for Proposals occupies the third position with 14 percent of the total respondents.

Evaluation of Services

Upon asking about the evaluation of services provided by the Puerto Rico Bureau of Labor Statistics the results were very positive. The excellent category received 64 percent of the responses and 28 percent rated our services as good. This states that 92 percent of our users rated our services between Excellent and Good. Only three percent rated the services as Average and 5 percent did not answer the question.

Evaluation of Services

Comments and Recommendations

We have evaluated the suggestions and comments presented by the respondents in the survey. The following is a summary of their responses:

- 1- Need for more statistical data by region and geographic areas.
- 2- More agricultural employment data.
- 3- Disseminate statistics series data in Excel format.
- 4- Present time series in web page.
- 5- Updated publications (as Industrial Composition).

Attachment – Survey Tables

Survey Questions:

| 1- Gender | Responses | Percent |
|------------------|------------------|----------------|
| Male | 53 | 43.0 |
| Female | 69 | 57.0 |
| Total | 122 | 100.0 |

| 2) Total by Age | Responses | Percent |
|------------------------|------------------|----------------|
| less than 18 | 0 | 0.0 |
| 19 to 24 | 1 | 1.0 |
| 25 to 39 | 28 | 23.0 |
| 40-64 | 86 | 70.0 |
| 65 and over | 6 | 5.0 |
| N/A | 1 | 1.0 |
| Total | 122 | 100.0 |

| 3)Total frequency use of statistics | Responses | Percent |
|--|------------------|----------------|
| once every 3 to 4 months | 14 | 11.0 |
| once or twice a year | 34 | 28.0 |
| monthly | 52 | 43.0 |
| quarterly | 20 | 16.0 |
| N/A | 2 | 2.0 |
| Total | 122 | 100.0 |

| 4) How do you receive the information | Responses | Percent |
|--|------------------|----------------|
| regular mail | 3 | 2.0 |
| e-mail | 102 | 84.0 |
| internet | 14 | 11.0 |
| other (describe) | 3 | 3.0 |
| Total | 122 | 100.0 |

| 5) At this moment your are: | Responses | Percent |
|------------------------------------|------------------|----------------|
| student | 3 | 2.0 |
| employer | 25 | 20.0 |
| teacher | 3 | 2.0 |
| planner | 8 | 7.0 |
| consultant | 8 | 7.0 |
| government representative | 30 | 25.0 |
| Accountant | 6 | 5.0 |
| Economist | 9 | 7.0 |
| other | 30 | 25.0 |
| Total | 122 | 100.0 |

6) If you are employed please provide the following Information

| Occupation | Industry |
|-----------------------------|------------------------------|
| Manager (12) | Government (31) |
| Director (11) | Health Services (3) |
| Economist (11) | Manufacturing (8) |
| Librarian(7) | Education Services(23) |
| Accountant and Auditor (6) | Professional Services(11) |
| Analyst (6) | Financial and Securities (5) |
| Administrative Assistant(4) | Retail trade(3) |
| Administrator (4) | Other Services(4) |
| Coordinator(4) | |
| Counselor (4) | |
| Planner(4) | |
| Professor(4) | |
| Statistician(4) | |
| Supervisor(4) | |

| 7) Purpose of the information (can check more than one) | Response | Percent |
|---|------------|--------------|
| Job search | 11 | 6.0 |
| Negotiations | 7 | 4.0 |
| Proposals | 27 | 14.0 |
| Workforce Information Act (WIA) | 10 | 5.0 |
| Trainings | 19 | 10.0 |
| Marketing and other policies | 9 | 5.0 |
| Economic Studies | 53 | 27.0 |
| Product Marketing | 10 | 5.0 |
| Others | 48 | 25.0 |
| Total | 194 | 100.0 |

V. Activities Undertaken to Meet Customer Needs

V. Activities Undertaken to Meet Customer Needs

We have been active in many job fairs throughout the Island, disseminating labor force information by handing out brochures and offering workshops. A workshop was offered to the 14 area offices of the Employment Service Bureau. Conferences were given to high school and college students and vocational centers.

Technical workshops were given to counselors and case managers at various levels of the academic sector. Also, our directive staff had participated in t.v. and radio interviews explaining our surveys and products.

The next table we present a detailed summary of the services provided.
